1. All pending claims 1-17 are allowed. Claims 1, 8 and 12 are independent.

The amendment filed June 6, 2006 has overcome the objection of claims 1-17 set forth in the previous Office Action dated March 8, 2006.

2. The following is an examiner's statement of reasons for allowance:

The reasons for allowance for independent claims 1, 8 and 12 given in the previous Office Action dated March 8, 2006 are still valid after the updated search. The reasons are modified and repeated below.

Claims 1, 8 and 12 are allowable over the prior art of record because the closest prior art Christopherson (PCT International Publication No. WO 01/54076 A1, Published July 26, 2001), either alone or in combination with Liu et al. (U.S. Patent No. 6,040,584), does disclose a translucent reference surface disposed between the first and second light sources for 1) passing through light from the first light source to the image capture device when the first light source is energized, and 2) reflecting the light from the second light source to the image capture device when the second light source is energized, the first light source for illuminating the document to allow the image capture device to detect a leading edge of the document, in combination with other limitations of any of claims 1, 8 and 12.

Claims 2-7, 9, 10, 11, and 13-17 depend on claims 1, 8, or 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
